

# The death or illness of a loved one

You recently experienced the death or terminal diagnosis of a loved one

## Scenario:

Between COVID and the recent death of a family member, I started to wonder if I needed to have some measures in place in case something happens to me. I wanted to make sure my family and I were covered, but I didn't really know what I needed. I asked a friend of mine and he said that his mom had Life Insurance and when she passed away, he couldn't believe how helpful it was to have that money. His mom lived in Vancouver, so he used that money to help himself and his family travel for the funeral and stay to get her estate in order.

## Result:

Because of what my friend went through, I decided to purchase Life Insurance so my loved ones have financial support. My employer doesn't offer much Life Insurance, so I ended up purchasing the basic coverage through my employer and getting additional coverage through insurance on my own.

The content on this page serves as an example of a life event, meant for context and consideration when thinking about adding insurance to your portfolio. It is not meant to be taken as a recommendation and we always suggest you seek the advice from a licensed insurance advisor when making important insurance decisions. Products are offered based on plan availability, applications are subject to review, and claims are paid out on approval and are not guaranteed.
